SMETA Audit Pillars:	☒ Labour Standards	☒ Health and Safety (plus Environment 2-Pillar)	☒ Environment 4-pillar	☒ Business Ethics
Date of Audit:	2024-04-11			

Audit Company Name:
TUV Rheinland (TUEV Rheinland)

Audit Conducted By					
Affiliate Audit Company	☒	Purchaser	☐	Retailer	☐
Brand owner	☐	NGO	☐	Trade Union	☐
Multi-stakeholder	☐	Combined Audit (select all that apply)			

Audit Content:

(1) A SMETA audit was conducted which included some or all of Labour Standards, Health & Safety, Environment and Business Ethics. The SMETA Best Practice Version 6.1 (March 2019) was applied. The scope of workers included all types at the site e.g. direct employees, agency workers, workers employed by service providers and workers provided by other contractors. Any deviations from the SMETA Methodology are stated (with reasons for deviation) in the SMETA Declaration.

(2) The audit scope was against the following reference documents

2-Pillar SMETA Audit

- ETI Base Code
- SMETA Additions
 - Universal rights covering UNGP
 - Management systems and code implementation,
 - Responsible Recruitment
 - Entitlement to Work & Immigration,
 - Sub-Contracting and Home working,

4-Pillar SMETA

- 2-Pillar requirements plus
- Additional Pillar assessment of Environment
- Additional Pillar assessment of Business Ethics
- The Customer's Supplier Code (Appendix 1)

(3) Where appropriate non-compliances were raised against the ETI code / SMETA Additions & local law and recorded as non-compliances on both the audit report, CAPR and on Sedex.

(4) Any Non-Compliance against customer code shall not be uploaded to Sedex. However, in the CAPR these 'Variances in compliance between ETI code / SMETA Additions/ local law and customer code' shall be noted in the observations section of the CAPR.

SMETA Declaration

I declare that the audit underpinning the following report was conducted in accordance with SMETA Best Practice Guidance and SMETA Measurement Criteria.

- (1) Where appropriate non-compliances were raised against the ETI code / SMETA Additions & local law and recorded as non-compliances on both the audit report, CAPR and on Sedex.
- (2) Any Non-Compliance against customer code alone shall not be uploaded to Sedex. However, in the CAPR these 'Variances in compliance between ETI code / SMETA Additions/ local law and customer code' shall be noted in the observations section of the CAPR.

Auditor Team			
Lead Auditor:	Alex Xu	APSCA Number:	21704102
Additional Auditors:			
Date of declaration:	2024-04-12		

Note: The focus of this ethical audit is on the ETI Base Code and local law. The additional elements will not be audited in such depth or scope, but the audit process will still highlight any specific issues.

Site Representation	
Full Name:	Ms. Wang Jin Bo
Title:	QC Manager
Date of declaration:	2024-04-12
Comments: <i>Any exceptions to this must be recorded here (e.g. different sample size): Sampled wage records from the past 5 months were provided for review (5 months only since the operation for digital thermometer just started last Sep 2020). The audit took 2.0 man-days (9AM-6PM per day). Audit time was extended until 8PM due to the extent of documentation; this was agreed upon with the factory representatives</i>	
Nil

Local Law Issues

Issue	Description
§1	In accordance with Article 27 of the Regulation For Chemical Usage Safety in Work Place: Staff and workers are entitled to receive: (1) Date and information in description of the specific characteristics, hazardous ingredients, and safety precaution marks of the chemicals to be used in the working premises, and instructions upon safety techniques, etc. (2) Information concerning the probability of occurrence of harm against safety and health of staff and workers caused by hazardous chemicals in the working process. (3) Trainings upon safety techniques, including trainings with regard to prevention and control, and danger avoiding methods, handling of emergency cases, or emergency measures. (4) Labor protection articles in conformity to State stipulations.

§2	In accordance with Regulations on the safety administration of hazardous chemicals, (Effective from December 1, 2011) Article 20: The units producing, storing dangerous chemicals shall, according to the categories and hazardous characteristics of the dangerous chemicals they produce and store, set up the corresponding safety facilities and equipment for monitoring, aeration, protection against exposure to sun, temperature adjusting, fireproof, firefighting, flameproof, pressure discharging, prevention of toxicants, neutralization, moisture proof, protection against thunder, protection against static, antiseptis, prevention of leakage, protective containment/bund or segregated operations, etc. In addition, the units shall carry out maintenance and care regularly according to the national standards, industrial standards or the relevant provisions of the State to guarantee the safe operations of facilities and equipment.
§3	In accordance with General rules for fire safety management of storage occupancies (XF 1131-2014), The stacking of items in the warehouse should meet the following requirements: a) The distance between the upper part of the stack and the floor slab or flat roof should not be less than 0.3m (starting from the crossbeam of the herringbone roof truss); b) The distance between the object and the illuminating lamp shall not be less than 0.5m; c) The distance between the object and the wall shall not be less than 0.5m; d) The distance between the stacking of items and the columns shall not be less than 0.3m; e) The distance between the stacking of items shall not be less than 1m.
§4	In accordance with PRC Labor Law article 41, the employer may extend working hours due to the requirements of its production or business after consultation with the trade union and laborers, but the extended working hour for a day shall generally not exceed one hour; if such extension is called for due to special reasons, the extended hours shall not exceed three hours a day under the condition that the health of laborers is guaranteed. However, the total extension in a month shall not exceed thirty-six hours.

Worker Interview Summary	
Were workers aware of the audit?	☒ Yes ☐ No
Were workers aware of the code?	☒ Yes ☐ No
Number of group interviews:	One group of 4 workers.
Number of individual interviews:	Male: 2 Female: 4
All groups of workers are included in the scope of this audit such as; Direct employees, Casual and agency workers, Workers employed by service providers such as security and catering staff as well as workers supplied by other contractors.	☒ Yes ☐ No Please give details:
Interviews were done in private and the confidentiality of the interview process was communicated to the workers?	☒ Yes ☐ No
In general, what was the attitude of the workers towards their workplace?	☒ Favorable ☐ Non-favourable ☐ Indifferent
What was the most common worker complaint?	All the interviewees were satisfied with the factory and no compliant was raised during the interview.
What did the workers like the most about working at this site?	All workers said they were satisfied with wages and the working environment.
Any additional comment(s) regarding interviews:	Nil
Attitude of workers to hours worked:	No negative information was raised.
Is there any worker survey information available?	☐ Yes ☒ No Please give details:

Attitude of workers:

A total of 10 workers (7 females and 3 males) were selected for confidential interviews. Out of the 10 workers, 6 workers were interviewed individually in the workshop and the rest workers were interviewed in 1 group in the meeting room to make them feel more comfortable. All employees claimed they were satisfied with working conditions and the current wages which in their view was in line with wages in the locality. They felt free to leave this employer. In general, they seemed comfortable talking with the auditor, and the most information gathered from these interviewees was consistent with the documentation provided by the management.

Attitude of worker's committee/union reps:

The worker representative was favorable with the management, working condition and the wages, and no negative information was raised. And regular communication was conducted between management and the worker representative, they could freely raise their opinions and involve the management activities and the facility management could investigate their suggestions or concerns, respond to them in a timely manner.

Attitude of managers:

Factory management were cooperative with the auditor and provided full access to the whole facility. Management provided required documents and records in time, accompanied assessors with factory tour and helped ensure workers interviews conducted confidential. Management staff attended the closing meeting, then confirmed all the findings and signed on the CAPR.

0A - Universal Rights covering UNGP
[Summary of Findings]

0A: Compliance Requirements

0.A.1 Businesses should have a policy, endorsed at the highest level, covering human rights impacts and issues, and ensure it is communicated to all appropriate parties, including its own suppliers.
0.A.2 Businesses should have a designated person responsible for implementing standards concerning Human rights
0.A.3 Businesses shall identify their stakeholders and salient issues.
0.A.4 Businesses shall measure their direct, indirect, and potential impacts on stakeholders (rights holders) human rights.
0.A.5 Where businesses have an adverse impact on human rights within any of their stakeholders, they shall address these issues and enable effective remediation.
0.A.6 Businesses shall have a transparent system in place for confidentially reporting, and dealing with human rights impacts without fear of reprisals towards the reporter. Note for auditors and readers. This is not a full Human Rights Assessment, but instead a check on the business's implementation of processes to meet their Universal rights covering UNGP responsibilities.

Current Systems and Evidence Examined

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is /are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

Current Systems:

1. The factory has established written policy and procedures to meet the human rights and labour standards required by local law and customers. Through trainings, handbooks and postings at the facility, the factory communicated the social policies included Human rights to the supplier, and showed the records to check the code requirements were met or not.
2. Ms. Wang Jin Bo/ QC Manager was responsible for compliance with the human rights to all appropriate parties, including its own suppliers.
3. There was a procedure to identify their stakeholders on site.
4. The factory established the grievance mechanism for confidentially reporting and dealing with human rights impacts without fear of reprisals towards the reporter, suggestion box was available for confidentially reporting human rights impacts without fear of reprisal.
5. The factory conducted the internal social accountability audit on 21 February 2024.

Evidence examined:

Details:

1. The written policy including human rights
2. Social compliance management handbook
3. Factory rules
4. Internal social accountability audit records
5. Training records of human rights
6. Communicate records of social accountability policy to suppliers
7. Worker and management interview

Any other comments:

Nil

Policy statement that expresses commitment to respect human rights?

☒ Yes ☐ No

Please give details:

The factory had established policy about the human rights and social responsibility and posted it in the bulletin board of factory.

Are the policies included in workers' manuals?	☒ Yes ☐ No Please give details: The policies were included in the workers' manuals.
Does the business have a designated person responsible for implementing standards concerning Human Rights?	☒ Yes ☐ No Please give details: Ms. Wang Jin Bo/ QC Manager
Does the business have a transparent system in place for confidentially reporting, and dealing with human rights impacts without fear of reprisals towards the reporter?	☒ Yes ☐ No Please give details: Complaint control procedure and protection for whistle-blower control procedure was established. The employees could report through suggestion box, work representative or directly to the management and the information of reporter would be confidential to others.
Does the grievance mechanism meet UNGP expectations? (Legitimate, Accessible, Predictable, Equitable, Transparent, Rights-compatible, a source of continuous learning and based on stakeholder engagement)	☒ Yes ☐ No
Does the business demonstrate effective data privacy procedures for workers' information, which is implemented?	☒ Yes ☐ No Please give details: The factory established personal privacy information protection procedure. Workers' privacy information such as payrolls, personnel files etc. were protected by the factory.
Measuring Workplace Impact	
Annual worker turnover(Number of workers leaving in last 12 months as a % of average total number of workers on site over the year (annual worker turnover))	Last year 5.0% This year 3.0%
Current % quarterly (90 days) turnover(Number of workers leaving from the first of the 90 day period through to the last day of the 90 day period / [(number of employees on the 1st day of 90 day period + number of employees on the last day of the 90 day period) / 2])	3.0%
Annual % absenteeism(Number of days lost through job absence in the year / [(number of employees on 1st day of the year + number employees on the last day of the year) / 2] * number available workdays in the year)	Last year 2.0% This year 1.0%
Quarterly (90 days) % absenteeism(Number of days lost through job absence in the period / [(Number of employees on 1st of the period + Number of employees on the last day of the period / 2] * Number of available workdays in the month)	1.0%

Are accidents recorded?	☒ Yes ☐ No Please give details: Accident records were kept in files, but no accidents were occurred in the past one year based on the accidents record.	
Annual Number of work related accidents and injuries per 100 workers((Number of work related accidents and injuries * 100) / Number of total workers)	Last year	0.0%
	This year	0.0%
Quarterly (90 days) number of work related accidents and injuries per 100 workers((Number of work related accidents and injuries * 100) / Number of total workers)	0.0%	
Lost day work cases per 100 workers(((Number of lost days due to work accidents and work related injuries * 100) / Number of total workers)	Last year	0.0%
	This year	0.0%
% of workers that work on average more than 48 standard hours / week in the last 6 / 12 months	6 month	0.0%
	12 month	0.0%
% of workers that work on average more than 60 total hours / week in the last 6 / 12 months	6 month	0.0%
	12 month	0.0%

0B - Management Systems and code Implementation
[Summary of Findings]

0B: Compliance Requirements

- 0.B.1 Suppliers are expected to implement and maintain systems for delivering compliance to this Code.
0.B.2 Suppliers shall appoint a senior member of management who shall be responsible for compliance with the Code.
0.B.3 Suppliers are expected to communicate this Code to all employees.
0.B.4 Suppliers are expected to be operating legally in premises with the correct business licenses and permissions and to have systems to ensure that all relevant land rights have been complied with.
0.B.5 Suppliers should communicate this code to their own suppliers and, where reasonably practicable, extend the principles of this Ethical Code through their supply chain.

Current Systems and Evidence Examined

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is /are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

Current Systems:

1. The factory had well set up a proper management system to implement social compliance requirements. All required documents were provided, such as business license. And it was legal and valid.
2. There was an internal audit team to take on the role for internal audit of the social standards of the factory. The internal audit and management review records were provided. The factory kept the records of social responsibility assessment and checked the code requirements were met or not.
3. Ms. Wang Jin Bo/ QC Manager oversaw implementing and updating all social compliance policy and procedure.
4. The factory had communicated this code to their suppliers. And the assessment was conducted on suppliers annually.
5. The factory provided the ETI training for all employees and posted the ETI Code on site.

Evidence examined:

Details:

1. Business license
2. Training records
3. Employee handbook
4. Management and worker interview.
5. Company social accountability manual
6. Ethics with the commitment of being compliant in all aspects of business and integrity aligned with the client's requirement and local law.

Any other comments:

Nil

Management Systems

In the last 12 months, has the site been subject to any fines/prosecutions for non-compliance to any regulations?

☐ Yes ☒ No

Please give details:

No fines or prosecutions were identified in the last 12 months.

Do policies and/or procedures exist that reduce the risk of forced labour, child labour, discrimination, harassment & abuse?

☒ Yes ☐ No

Please give details:

The factory established policies and procedures on forced labor, child labor, discrimination, harassment & abuse, no negative evidence was found.

If Yes, is there evidence (an indication) of effective implementation? Please give details.

The factory had established policies and procedures which ensured the site met in particular discrimination, child labour prohibition and general human rights standards.

If Yes, is there evidence (an indication) that training has been effective e.g. training records etc.? Please give details	☒ Yes ☐ No Please give details: The managers and workers received training in the standards for forced labour, child labour, discrimination, harassment & abuse.
Does the site have any internationally recognised system certifications e.g. ISO 9000, 14000, OHSAS 18000, SA8000 (or other social audits)?	☒ Yes ☐ No Please give details: The factory obtained the ISO 9001:2015 certification, number: 12823Q2512RIM, valid date 23 December 2025.
Is there a Human Resources manager/department?	☒ Yes ☐ No Ms. Fang Cui/ HR
Is there a senior person /manager responsible for implementation of the code?	☒ Yes ☐ No Please give details: Mr. Wang Jin Bo/ QC Manager
Is there a policy to ensure all worker information is confidential?	☒ Yes ☐ No Please give details: The company's policies stated that all employees' information was kept in confidential.
Is there an effective procedure to ensure confidential information is kept confidential?	☒ Yes ☐ No Please give details: All workers' information was kept in the office.
Are risk assessments conducted to evaluate policy and procedure effectiveness?	☒ Yes ☐ No Please give details: The factory conducted the risk assessment to evaluate the effectiveness of the policy and procedure.
Does the facility have a process to address issues found when conducting risk assessments, including implementation of controls to reduce identified risks?	☒ Yes ☐ No Please give details: Any problems found during the internal audit been brought to the attention of senior management and corrections had been made.
Does the facility have a policy/code which require labour standards of its own suppliers?	☒ Yes ☐ No Please give details: The facility sent a copy of the ETI code and any relevant customer codes to its own suppliers.
Land Rights	

Does the site have all required land rights licenses and permissions (see SMETA Measurement Criteria)?	☒ Yes ☐ No Please give details: The factory provided all required land rights licenses such as property ownership certificate for review.
Does the site have systems in place to conduct legal due diligence to recognize and apply national laws and practices relating to land title?	☒ Yes ☐ No Please give details: The factory recognized and applied national laws and practices relating to land title.
Does the site have a written policy and procedures specific to land rights?	☐ Yes ☒ No Please give details: N/A, The land in China mainland was belonged to the nation. Anybody, no matter the characters, could only rent the land from governmental department for a period. If the factory would like to use the land, it should apply for it from governmental department. The governmental department would make decision on whether to provide the approval.
Is there evidence that facility/site compensated the owner/lessor for the land prior to the facility being built or expanded?	☐ Yes ☒ No Please give details: No such finding was found.
Does the facility demonstrate that alternatives to a specific land acquisition were considered to avoid or minimize adverse impacts?	☐ Yes ☒ No Please give details: N/A. No land acquisition plan.
Is there any evidence of illegal appropriation of land for facility building or expansion of footprint?	☐ Yes ☒ No Please give details: No illegal appropriation of land for facility building or expansion of footprint.

1 - Freely chosen Employment [Summary of Findings]

1: Compliance Requirements

1.1 There is no forced, bonded or involuntary prison labour.

1.2 Workers are not required to lodge "deposits" or their identity papers with their employer and are free to leave their employer after reasonable notice.

Current Systems and Evidence Examined

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is /are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

Current Systems:

1. The factory had a hiring policy and hiring procedures in place and provided for review.
2. There was an application procedure which stated that workers must present their ID's for proof of age but that only copies must be kept in the personnel files and the original given back to the workers immediately. No deposits or any original ID are required to be detained during employment.
3. The employee handbook given to all workers on joining, stated that workers within their probation period were free to leave with 3 days written notice and permanent workers (this was out of probation) they can resign from the factory with one month's prior written notice, given to their supervisor. The handbook also stated that they would be given their full wages on their last day of work. Resignation is free and wages are paid to resigned workers on the terminated day.
4. The terms and conditions of employment in the handbook stated that the workers were free to leave the workplace outside of their working hours. Workers are not required to stay at the factory if they do not want to, and overtime is voluntary as well.
5. The above was confirmed in management and worker interview.

Evidence examined:

Details:

1. Social accountability policy and manual
2. Personnel files and labour contracts
3. Resignation records
4. Training records of forced, bonded or involuntary prison labour
5. Interview with management and workers
6. Site tour

Any other comments:

Nil

Is there any evidence of retention of original documents, e.g. passports/ID' (If yes, please give details and category of workers affected)

☐ Yes ☒ No

Please give details:

Is there any evidence of a loan scheme in operation (If yes, please give details and category of workers affected)

☐ Yes ☒ No

Please give details:

Is there any evidence of retention of wages / deposits (If yes, please give details and category of workers affected)

☐ Yes ☒ No

Please give details:

Are there any restrictions on workers' freedom to terminate employment?

☐ Yes ☒ No

Please give details:

There is no restrictions on workers' freedom to terminate employment during this audit.

If any part of the business is UK based or registered there & has a turnover over £36m, is there a published a 'modern day slavery statement?	☐ Yes ☐ No ☒ Not Applicable Please give details: N/A
Is there evidence of any restrictions on workers' freedoms to leave the site at the end of the work day?	☐ Yes ☒ No Please give details: The terms and conditions of employment in the handbook stated that the employees were free to leave the workplace at the end of the work day.
Does the site understand the risks of forced / trafficked / bonded labour in its supply chain	☒ Yes ☐ No ☐ Not Applicable Please give details: The site had established the procedures to identify the forced, trafficked and bonded labour in their supply chain.
Is the site taking any steps taking to reduce the risk of forced / trafficked labour?	☒ Yes ☐ No Please give details: Factory carried out social compliance assessments for all their suppliers every year.

2 - Freedom of Association and Right to Collective Bargaining are Respected [Summary of Findings]

2: Compliance Requirements

- 2.1 Workers, without distinction, have the right to join or form trade unions of their own choosing and to bargain collectively.
2.2 The employer adopts an open attitude towards the activities of trade unions and their organisational activities.
2.3 Workers' representatives are not discriminated against and have access to carry out their representative functions in the workplace.
2.4 Where the right to freedom of association and collective bargaining is restricted under law, the employer facilitates, and does not hinder, the development of parallel means for independent and free association and bargaining.

Current Systems and Evidence Examined

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is /are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

Current Systems:

1. There's a relevant written policy / procedure documented in place. The factory management always respected workers' choice and the freedom of association and never interfered with workers to join the trade union or any other kind of workers committee.
2. There's no union but a worker representative existing in the factory.
3. The worker representatives who were democratically elected by the production workers. The worker representatives are not discriminated against and have access to carry out their representative functions in the workplace.
4. All interviewed workers stated that they could report their concerns to the worker representative or directly to the supervisor or upper management.
5. In addition, workers could also raise any issue or express their concerns through suggestion box. And all complaints or suggestions would be tackled within a short time.
6. The meeting between with factory management and worker committee was conducted monthly and the last meeting held on 8 April 2024.

Evidence examined:

Details:

1. Written freedom of association procedure was established in the factory, which recognized and respected the right of employees to exercise their lawful right of free association.
2. Social accountability manual included worker committee selection program and the responsibility of the worker representative.
3. Employee handbook stated that employees are free to form worker committee and nobody will be treated differently whether they are members of worker committee.
4. Facility management commented that they collect the suggestions from the suggestion box and review them in the management meeting once a month. If agreed, they will take the relevant actions to improve.
5. Interview with workers and management.

Any other comments:

Nil

What form of worker representation/union is there on site? (Please add the name of the union or committee in the textbox)	☐ Union ☒ Other ☐ Worker Committee ☐ None
Other details:	worker representative
Is it a legal requirement to have a union?	☐ Yes ☒ No
Is it a legal requirement to have a worker's committee?	☐ Yes ☒ No

Is there any other form of effective worker/management communication channel? (Other than union/worker committee e.g. H&S, sexual harassment)	☒ Yes ☐ No Please give details: Workers could raise their concerns through worker representative, suggestion box, directly communicating with the factory management.
Is there evidence of free elections?	☒ Yes ☐ No
Does the supplier provide adequate facilities to allow the Union or committee to conduct related business?	☒ Yes ☐ No Please give details: Worker representatives can carry out function without interruption and take advantage of factory facilities.
Name of union and union representative, if applicable:	N/A. There is no labour union established in the factory.
Is there evidence of free elections?	☐ Yes ☐ No ☒ Not Applicable
If there is no union, is there a parallel means of consultation with workers e.g. worker committees?	All workers could directly report their concerns via the worker representative, suggestion box, or directly report to their supervisors.
Is there evidence of free elections?	☒ Yes ☐ No ☐ Not Applicable
Are all workers aware of who their representatives are?	☒ Yes ☐ No Please give details: As per the worker interview, all the worker knew their representative.
Were worker representatives freely elected?	☒ Yes ☐ No
Date of last election:	2024-02-21
Do workers know what topics can be raised with their representatives?	☒ Yes ☐ No
Were worker representatives/union representatives interviewed?	☒ Yes ☐ No
If Yes, please state how many:	1.0
Please describe any evidence that union/worker's committee is effective? Specify date of last meeting; topics covered; how minutes were communicated etc.	The latest meeting was conducted on 8 April 2024 with the tissue of worker benefits, it took about 30 minutes. Meeting minutes was produced and shared with the total workforce. The meeting records were provided for review.
Are any workers covered by Collective Bargaining Agreement (CBA)?	☐ Yes ☒ No

3 - Working Conditions are Safe and Hygienic [Summary of Findings]

3: Compliance Requirements

3.1 A safe and hygienic working environment shall be provided, bearing in mind the prevailing knowledge of the industry and of any specific hazards. Adequate steps shall be taken to prevent accidents and injury to health arising out of, associated with, or occurring in the course of work, by minimising, so far as is reasonably practicable, the causes of hazards inherent in the working environment.

3.2 Workers shall receive regular and recorded Health & Safety training, and such training shall be repeated for new or reassigned workers.

3.3 Access to clean toilet facilities and to potable water, and, if appropriate, sanitary facilities for food storage shall be provided.

3.4 Accommodation, where provided, shall be clean, safe, and meet the basic needs of the workers.

3.5 The company observing the code shall assign responsibility for Health & Safety to a senior management representative.

Current Systems and Evidence Examined

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is /are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

Current Systems:

1. The EHS policy and procedure was established, relevant document was provided for review.
2. Ms. Wang Jin Bo/ QC Manager was appointed responsible for H&S issues in the factory. Minutes of meetings showed that there was meeting between the H&S committee (workers) and the H&S manager, and each point was acted on.
3. The evacuation routes in the factory were clean and evacuation plans were posted at the production area. The factory installed sufficient fire equipment in the workshops (including fire extinguishers, fire hydrants, , fire sprinkler, fire alarms and so on) and monthly inspection records were attached on the equipment. The factory conducted fire drill twice a year, which included the evacuation exercise and the use of the fire-fighting facilities, including production areas and all employees, the recent fire drill was on 25 November 2023, and relevant records were provided for review.
4. The factory set enough toilets, adequate first aid kits in each production area and they were well stocked. Near the first aid kits, the contact information of first aider was posted. Potable water was provided free of charge to workers in all areas and test report was up to date.
5. Workers were trained on machine safety, chemical safety, etc. and training records were reviewed.
6. The factory conducted workplace occupational hazard factor detection. The occupational health training was provided to workers once they joined the factory. The occupational health check was provided yearly and also when workers joined and left the factory.
7. The factory had posted the workplace occupational hazard factors inspection result at the workplace for workers' reference.

Evidence examined:

Details:

1. Health and safety policy, manual, committee minutes
2. Certificates and training records
3. Fire equipment maintenance records
4. Fire drill and evacuation records
5. Checks on fire equipment
6. Accident reports
7. Interview with H&S manager and committee members and workers
8. Site tour

Any other comments:

Nil

Does the facility have general and occupational Health & Safety policies and procedures that are fit for purpose and are these communicated to workers?	☒ Yes ☐ No Please give details: The facility had general Health & Safety and occupational Health & Safety policies and procedures that are fit for purpose, and these were communicated to workers by bulletin board and training.
Are the policies included in workers' manuals?	☒ Yes ☐ No Please give details: Per document review, the policies were included in worker's manual.
Are there any structural additions without required permits/inspections (e.g. floors added)?	☐ Yes ☒ No Please give details: No any structural addition was detected during the audit
Are visitors to the site informed on H&S and provided with personal protective equipment?	☒ Yes ☐ No Please give details: The factory informed visitors on H&S and provided for visitors with personal protective equipment. Factory also posted the warning signs to remind visitors and workers.
Is a medical room or medical facility provided for workers?(This section is to list evidence to support system description (Documents examined & relevant comments. Include renewal/expiry date where appropriate))	☐ Yes ☒ No Please give details: No local law requirement, but there were adequate first aid kits in each production area.
Is there a doctor or nurse on site or there is easy access to first aider/ trained medical aid?	☒ Yes ☐ No Please give details: There are 2 trained first aiders were available in the factory for first aid service. The first aider's contact information was posted beside each first aid kit.
Where the facility provides worker transport – is it fit for purpose, safe, maintained and operated by competent persons e.g. buses and other vehicles?	☐ Yes ☒ No Please give details: No transport facility was provided to workers.
Is secure personal storage space provided for workers in their living space and is fit for purpose?	☐ Yes ☒ No Please give details: N/A, no dormitory provided by the factory.
Are H&S Risk assessments are conducted (including evaluating the arrangements for workers doing overtime e.g. driving after a long shift) and are there controls to reduce identified risk?	☒ Yes ☐ No Please give details: Health and safety risk assessment procedure was established and risk identification, assessment and control action list had worked out. The factory provided the risk assessment list for reviewing and effective actions were recorded.

Is the site meeting its legal obligations on environmental requirements including required permits for use and disposal of natural resources?	☒ Yes ☐ No Please give details: As per document review and management interview, the facility met its legal obligations on environmental requirements including required permits for use and disposal of natural resources.
Is the site meeting its customer requirements on environmental standards, including the use of banned chemicals?	☒ Yes ☐ No Please give details: The factory learned the requirements on environmental standards by their customers to accord with their requirements.

4 - Child Labour Shall Not Be Used [Summary of Findings]

4: Compliance Requirements

4.1 There shall be no new recruitment of child labour.

4.2 Companies shall develop or participate in and contribute to policies and programmes which provide for the transition of any child found to be performing child labour to enable her or him to attend and remain in quality education until no longer a child.

4.3 Children and young persons under 18 shall not be employed at night or in hazardous conditions.

4.4 These policies and procedures shall conform to the provisions of the relevant ILO Standards.

Current Systems and Evidence Examined

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is /are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

Current Systems:

1. There was a written policy regarding prohibition of child labor, which stipulated that no worker under 16 years old would be recruited in the factory.
2. To prevent hiring child labour, the factory also established age verification mechanism. The HR staffs would verify all workers' original ID cards and keep the photocopies of ID cards in the personnel files. All these processes ensured no fake ID card was used by potential worker during the hiring process.
3. All employees' personal files were provided for review, no child labour or juvenile workers was working at the factory currently.
4. Hiring procedure and related protection policy of young workers were also kept in place.
5. Through reviewing employees' personnel files and whole factory tour, the youngest worker on site was 26 years old, born on 27 June 1997 and joined the factory on 16 February 2023.

Evidence examined:

Details:

1. The recruitment policy on child labour
2. Recruitment procedure
3. Latest employee list
4. Personnel files of all workers
5. Interview with management and workers
6. Site tour

Any other comments:

Nil

Legal age of employment:	16
Age of youngest worker found:	26
Are there children present on the work floor but not working at the time of audit?	☐ Yes ☒ No
Percentage of under 18's at this site (of total workers)	0.0%
Are workers under 18 subject to hazardous work assignments?	☐ Yes ☒ No Please give details: N/A, no employees under 18 worked in the factory.

5 - Living Wages are Paid [Summary of Findings]

5: Compliance Requirements

5.1 Wages and benefits paid for a standard working week meet, at a minimum, national legal standards or industry benchmark standards, whichever is higher. In any event wages should always be enough to meet basic needs and to provide some discretionary income.

5.2 All workers shall be provided with written and understandable information about their employment conditions in respect to wages before they enter employment and about the particulars of their wages for the pay period concerned each time that they are paid.

5.3 Deductions from wages as a disciplinary measure shall not be permitted nor shall any deductions from wages not provided for by national law be permitted without the expressed permission of the worker concerned. All disciplinary measures should be recorded.

Current Systems and Evidence Examined

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is /are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

Current Systems:

1. Written wage & benefits policy (involved relevant local law regarding MW, OT wage and social insurance policy, paid annual leave, sick leave etc.) in place stated in the social compliance management manual which had clearly been communicated to all workers via labour contracts, factory rules (covered disciplinary measures policy / deductions from wages) posting and training etc.

2. All employees' wages were calculated by hourly rate basis and paid by cash at the end of the following month. The pay slip with proper information was provided to each worker.

3. During this audit, the payroll records from March 2023 to February 2024 were provided for review. As per review of 10 sampled employees' payrolls and attendance records of June 2023, December 2023 and February 2024, it was noted that all workers were paid at least RMB 1950 per month equal to RMB 11.21 per hour. And local legal minimum wage was RMB 1650 per month equal to RMB 9.48 per hour before 1 February 2024 and RMB 1800 per month equal to RMB 10.34 per hour since 1 February 2024. No workers were being paid below the minimum wage.

4. Additionally, all sampled workers were properly paid 150% and 200% of their normal wages for all workdays and weekend overtime hours respectively as legally required and no statutory holidays overtime hours were noted. All workers would be paid according to 300% of the normal wages when they were enjoying statutory holidays.

5. Paid annual leave benefit was also entitled to the employees who worked more than one year in the factory according to legal law.

6. As per the provided social insurance receipt of recent one year, all the workers had ben paid the social insurance by the factory.

Evidence examined:

Details:

- 1.Wages and benefits policy and procedure
- 2.Local and national laws
- 3.Local legal minmum wage documents
- 4.Payroll records
- 5.Labour contracts for workers
- 6.Resignation records, annual leave record
- 7.Production records, quality control records
- 8.Worker interview and management interview
- 9.Social insurance receipt

Are there different legal minimum wage grades? If Yes, please specify all.	☐ Yes ☒ No		
If there are different legal minimum grades, are all workers graded and paid correctly?	☐ Yes ☐ No ☒ Not Applicable Please give details:		
For the lowest paid production workers, are wages paid for standard/contracted hours (excluding overtime) below or above the legal minimum?	☐ Below legal min ☐ Meet ☒ Above		
Lowest actual wages found: Note: full time employees and please state hour / week / month etc.	RMB 1950 per month equal to RMB 11.21 per hour.		
Please indicate the breakdown of workforce per earnings	0.0% of workforce earning under minimum wage 0.0% of workforce earning minimum wage 100.0% of workforce earning above minimum wage		
Bonus Scheme found: Please specify details:	Bonus Scheme found: Job bonus Note: type of employee (e.g. full time, temp, etc.) and please state which units e.g. /hour /week /month etc.		
What deductions are required by law e.g. social insurance? Please state all types:	Individual parts of social insurance and individual income tax		
Have these deductions been made?	☒ Yes ☐ No		

Please list all deductions that have been made.	individual income tax
Please list all deductions that have not been made.	Individual parts of social insurance were paid by the factory.
Were appropriate records available to verify hours of work and wages?	☒ Yes ☐ No
Were any inconsistencies found? (if yes describe nature)	☐ Yes ☒ No
Do records reflect all time worked? (For instance, are workers asked to attend meetings before or after work but not paid for their time)	☒ Yes ☐ No Please give details: Confirmed by worker interview, no meetings was requested before or after work and the employees scan their finger/face after shift begins and ends. Workers were paid for all time including training time.
Is there a defined living wage: This is not normally minimum legal wage. If answered yes, please state amount and source of info: Please see SMETA Best Practice Guidance and Measurement Criteria.	☐ Yes ☒ No Please give details:
If yes, what was the calculation method used.	☐ ISEAL/Anker Benchmarks ☐ Asia Floor Wage ☐ Figures provided by Unions ☐ Living Wage Foundation UK ☐ Fair Wear Wage Ladder ☐ Fairtrade Foundation ☐ Other – please give details:
Are there periodic reviews of wages? If Yes give details (include whether there is consideration to basic needs of workers plus discretionary income).	☒ Yes ☐ No Please give details: The factory reviewed the wages and adjusted the minimum wage according to the local law and local minimum wage.
Are workers paid in a timely manner in line with local law?	☒ Yes ☐ No
Is there evidence that equal rates are being paid for equal work:	☒ Yes ☐ No Please give details: Per employee manual review and worker interview, it was confirmed that equal rates were being paid for equal work.
How are workers paid:	☒ Cash ☐ Cheque ☐ Bank Transfer ☐ Other

6 - Working Hours are not Excessive [Summary of Findings]

6: Compliance Requirements

6.1 Working hours must comply with national laws, collective agreements, and the provisions of 6.2 to 6.6 below, whichever affords the greater protection for workers. Sub-clauses 6.2 to 6.6 are based on international labour standards.

6.2 Working hours, excluding overtime, shall be defined by contract, and shall not exceed 48 hours per week.

6.3 All overtime shall be voluntary. Overtime shall be used responsibly, taking into account all the following: the extent, frequency and hours worked by individual workers and the workforce as a whole. It shall not be used to replace regular employment. Overtime shall always be compensated at a premium rate, which is recommended to be not less than 125% of the regular rate of pay.

6.4 The total hours worked in any 7-day period shall not exceed 60 hours, except where covered by clause 6.5 below.

6.5 Working hours may exceed 60 hours in any 7-day period only in exceptional circumstances where all of the following are met:

6.6 Workers shall be provided with at least one day off in every 7-day period or, where allowed by national law, 2 days off in every 14-day period.

Current Systems and Evidence Examined

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is /are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

Current Systems:

1. Written working hours policy (involved relevant local law regarding normal, OT hours and OT wage rate etc.) in place stated in the social compliance management manual which had clearly been communicated to all workers via labour contracts, factory rules (covered voluntary overtime policy, special terms for young workers / pregnant women / nursing mothers etc.) posting and training etc. The factory had a system for monitoring and managing working hours.

2. During this audit, the attendance records from March 2023 to February 2024. The normal working hours for workers were from 08:00-12:00, 13:30-17:30. The lunch break were from 12:00 to 13:30. If needed, regular overtime would be conducted 1 to 5 times per week, from 18:00 to 20:00. Overtime was voluntary. Saturdays was calculated as overtime; Sunday was guaranteed as rest.

3. The face recognition/ fingerprint attendance system was used to record time in and out of each employee and the data would be exported at end of the month for calculation of wage. Policy on timekeeping was clearly stated in the employee manual.

4. Per worker interview, overtime was voluntary and compensated at a legal premium rate to workers. The workers had right to refuse overtime work.

5. Based on provided time attendance records, workers' working hours was 10 hours a day (including 2 OT hours), 58 hours a week at most (including 18 OT hours)

6. There was no obvious peak month or non-peak month in the factory.

Evidence examined:

Details:

1. Factory policy on working hours, wages and benefits, employee handbook
2. Local and national laws
3. Workers contracts
4. Attendance records, wage records, annual leave records, resigned workers time records
5. Production and quality records to cross check hours
6. Management interview and worker interview
7. Working hours and benefit management

Any other comments:

Nil

Working hours' analysis

Systems & Processes

What timekeeping systems are used?	The face recognition/ fingerprint attendance system was used to record time in and out of each employee.
Is sample size same as in wages section?	☒ Yes ☐ No Please give details:
Are standard/contracted working hours defined in all contracts/employment agreements? (If no, please give details including % and which type of workers do NOT have standard hours defined in contracts/employment agreements.)	☒ Yes ☐ No
Are there any other types of contracts/employment agreements used?	☐ Yes ☒ No
Do any standard/contracted working hours defined in contracts/employment agreements exceed 48 hours per week? (If yes, please detail hours, %, types of workers affected and frequency.)	☐ Yes ☒ No
Are workers provided with at least 1 day off in every 7-day-period, or 2 in 14-day-period?	☒ 1 in 7 days ☐ 2 in 14 days ☐ No (please explain)
Is this allowed by local law?	☒ Yes ☐ No
Maximum number of days worked without a day off (in sample):	6
Standard/Contracted Hours worked	
Were standard working hours over 48 hours per week found? (If yes, % of workers & frequency)	☐ Yes ☒ No % of workers: null% Frequency:
Any local waivers/local law or permissions which allow averaging/annualised hours for this site? (If yes, please give details.)	☐ Yes ☒ No
Overtime Hours worked	
Actual overtime hours worked in sample (State per day/week/month)	Highest OT hours: 2 hours per day, 18 hours per week, 74 hours per month in June 2023 (random month); 2 hours per day, 18 hours per week, 82 hours per month in December 2023(random month); 2 hours per day, 18 hours per week, 40 hours per month in February 2024 (current paid month);
Combined hours (standard or contracted + overtime hours = total) over 60 found?	☐ Yes ☒ No Please give details: The maximum of the combined hours was 58 hours per week.
Approximate percentage of total workers on highest overtime hours:	100.0%

Is overtime voluntary? (Please detail evidence e.g. Wording of contract / employment agreement / handbook / worker interviews / refusal arrangements)	☒ Yes ☐ No ☐ Conflicting Information Please give details: Factory policy and worker interview stated that overtime was voluntary.
Overtime premium	
Are the correct legal overtime premiums paid? (Please give details of normal day overtime premium as a % of standard wages)	☒ Yes ☐ No ☐ N/A – there is no legal requirement to OT premium Please give details: 150% of normal wage per hour for weekday overtime wage per hour, 200% of normal wage per hour for weekend overtime working. 300% of normal wage per hour for overtime hours in statutory holiday if arranged.
Is overtime paid at a premium?	☒ Yes ☐ No 100% of sampled workers paid in every month.
If the site pays less than 125% OT premium and this is allowed under local law, are there other considerations? Please complete the boxes where relevant.	☐ No ☐ Consolidated pay ☐ Collective Bargaining agreements ☒ Other
Please give details	N/A; less than 125% OT was not existed in factory and was not allowed by law.
If more than 60 total hours per week and this is legally allowed, are there other considerations? Please complete the boxes where relevant. (Please explain any checked boxes above e.g. detail of consolidated pay / CBA or Other)	☒ Overtime is voluntary ☐ Onsite Collective bargaining allows 60+ hours/week is voluntary ☐ Safeguards are in place to protect worker's health and safety ☐ Site can demonstrate exceptional circumstances ☐ Other reasons (please specify)
Please explain any checked boxes above e.g. detail of consolidated pay / CBA or other	The maximum weekly working hours (including overtime working hours) were 58 hours.
Is there evidence that overtime hours are being used for extended periods to make up for labour shortages or increased order volumes?	☐ Yes ☒ No
If sufficient workers cannot be hired, are new working time arrangements explored to ensure that overtime is the exception rather than the rule?	☒ Yes ☐ No

Follow up method	☒ Follow up audit ☐ Desktop audit	
Timescale	☐ Immediate ☐ 30 days ☒ 60 days ☐ 90 days ☐ 120 days ☐ 180 days ☐ 365 days ☐ Other	
Actions	It is recommended that the factory should arrange reasonable production plan, increase productivity using positive means (such as bonuses) and reduce the overtime hours to ensure it is within 3 hours per day and 36 hours per month. Employees should be educated on health/safety dangers of excessive overtime. 建议工厂合理安排生产计划，通过积极手段（如奖金）提高生产率，减少加班时间，确保每天不超过 3 小时，每月不超过 36 小时。应向员工宣传过度加班对健康和安全的危害。	

7 - No Discrimination is Practiced [Summary of Findings]

7: Compliance Requirements

7.1 There is no discrimination in hiring, compensation, access to training, promotion, termination or retirement based on race, caste, national origin, religion, age, disability, gender, marital status, sexual orientation, union membership or political affiliation.

Current Systems and Evidence Examined

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is /are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

Current Systems:

1. The factory has written policy on anti-discrimination as well as policy on compensation, promotion and training etc. As informed by interviewed employees, most employees spoke highly of the facility owner.
2. New staff hiring policy and advertise indicates that no pregnancy or health check (HIV testing, HB check). Female workers in this factory were not required to take pregnant tests before or during their employment. Gender and ethnic balance between workers and middle management is proper.
3. Gender divisions did not exist in the facility; both female and male employees were distributed in all types of work, no evidence of sexual harassment detected during the audit.
4. There's grievance channel (suggestion box or anonymous phone line etc.) for workers to report any discrimination.

Evidence examined:

Details:

1. Anti-discrimination policy and social accountability manual
2. The hiring and termination procedure, leave application records and employee handbook
3. Attendance and payroll records
4. Contracts, training records
5. Termination records
6. Interview with management and workers

Any other comments:

Nil

Gender breakdown of Management + Supervisors (Include as one combined group)	Male: 60.0%	Female: 40.0%
Number of women who are in skilled or technical roles (e.g. where specific qualifications are needed i.e. machine engineer / laboratory analyst)	Nil	
Is there any evidence of discrimination based on race, caste, national origin, religion, age, disability, gender, marital status, sexual orientation, union membership or political affiliation?	☐ Hiring ☐ Promotion	☐ Compensation ☐ Termination or retirement ☐ Access to training ☒ No evidence of discrimination found
Please give details	N/A, no evidence of discrimination found	
Professional Development		
What type of training and development are available for workers?	All workers were given social responsibility policy training, H&S training, safety production training, fire safety training, safety production training, etc..	

Are HR decisions e.g. promotion, training, compensation based on objective, transparent criteria? (If no, please provide details)	☒ Yes ☐ No
---	---

8 - Regular Employment Is Provided [Summary of Findings]

8: Compliance Requirements

8.1 To every extent possible work performed must be on the basis of recognised employment relationship established through national law and practice.

8.2 Obligations to employees under labour or social security laws and regulations arising from the regular employment relationship shall not be avoided through the use of labour-only contracting, sub-contracting, or home-working arrangements, or through apprenticeship schemes where there is no real intent to impart skills or provide regular employment, nor shall any such obligations be avoided through the excessive use of fixed-term contracts of employment.

Additional Elements: Responsible Recruitment

8.3 Suppliers have full understanding of the entire recruitment process and assess all labour recruiters and intermediaries against legal and/or ethical requirements.

8.4 There are effective management systems in place to identify and monitor the hiring and management of all migrant workers, contract workers, agency workers, temporary or casual labour. The supplier shall implement processes to enable adequate control over agencies with regards the above points and related legislation.

8.5 Employment agencies must only supply workers registered with them.

8.6 Workers pay no recruitment fee at any stage of the recruitment process.

8.7 Worker contracts accurately reflect the agreed payment and terms in the recruitment process and are understood and signed by workers.

Current Systems and Evidence Examined

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is /are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

Current Systems:

1. All workers were recruited by the factory directly and signed contracts with the factory within 30 days since employment, all workers can have a copy of the contract of their own.
2. Work performed was based on recognized employment relationship established through national law and normal practice. HR staff was aware of local law concerning above worker pattern.
3. No apprentice, temporary worker, home worker or agency workers was working in the factory.

Evidence examined:

Details:

1. Recruitment policy, employee handbook
2. The hiring and termination practices and records
3. Personal files and labour contracts
4. Interview with management interview and workers

Any other comments:

Nil

Responsible Recruitment

All Workers

Were all workers presented with terms of employment at the time of recruitment, did they understand them and are they same as current conditions?

- ☒ Terms & Conditions presented ☒ Understood by workers
- ☒ Same as actual conditions

Did workers pay any fees, taxes, deposits or bonds for the purpose of recruitment/placement? (If yes, please describe details and specific category(ies) of workers affected)

- ☐ Yes ☒ No

Migrant Workers

Type of work undertaken by migrant workers:	The migrant workers could undertake all kinds of task.
Please give details about recruitment agencies for migrant workers:	Number of (in country) recruitment agencies used: 0 Number of (outside of local country) recruitment agencies used: 0
Are migrant workers' voluntary deductions (such as for remittances) confirmed in writing by the worker and is evidence of the transaction supplied by the facility to the worker?	☐ Yes ☒ No Please give details: N/A, no deduction made.
Is there any observation on this finding?	Nil
Are any migrant workers in skilled, technical or management roles? (This should include all migrant workers including permanent workers, temporary and/or seasonal workers)	☒ Yes ☐ No There are 3 migrant employees in management roles.
Non-employee workers	
Recruitment Fees	
Are there any fees?	☐ Yes ☒ No
Agency Workers (if applicable) (Workers sourced from a local agent who are not directly paid by the site, but paid by the agency. Usually the agencies are paid by the site and the wages of the individual workers are paid by the agency.)	
Number of agencies used (average):	0
Please provide the names of agencies if applicable	N/A
Were agency workers' age / pay / hours included within the scope of this audit?	☐ Yes ☒ No
Were sufficient documents for agency workers available for review?	☐ Yes ☒ No
Is there a legal contract agreement with all agencies?	☐ Yes ☒ No Please give details: N/A
Does the site have a system for checking labour standards of agencies?	☐ Yes ☒ No Please give details: N/A
Contractors (Contractors in this context are generally individuals who supply several workers to a site. Usually the contractors are paid by the site and the wages of the workers are paid by the contractor. Common terms include, gang bosses, labor provider.)	
Any contractors on site?	☐ Yes ☒ No Please give details: N/A
Do all contractor workers understand their terms of employment?	☐ Yes ☒ No Please give details: N/A

8A - Sub-Contracting and Homeworking [Summary of Findings]

8A: Compliance Requirements

8.A.1 There should be no sub-contracting unless previously agreed with the main client.

8.A.2 Systems and processes should be in place to manage sub-contracting, homeworking and external processing.

Current Systems and Evidence Examined

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is /are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

Current Systems:

1. The supplier control policy was established in the factory.
2. It was verified through supplier control policy review, factory tour, management interview and employee interview that no home-working or sub-contracting was used by this factory.

Evidence examined:

1. Supplier control policy
2. Factory tour (Calculation on total production and estimated capacity)
3. Materials in/out records
4. Management and employee interview

Any other comments:

Nil

Summary of sub-contracting – if applicable

Is there any sub-contracting at this site? ☐ Yes ☒ No

Summary of homeworking – if applicable

Is homeworking used at this site? ☐ Yes ☒ No

9 - No Harsh or Inhumane Treatment is Allowed

9: Compliance Requirements

9.1 Physical abuse or discipline, the threat of physical abuse, sexual or other harassment and verbal abuse or other forms of intimidation shall be prohibited.

9.2 companies should provide access to a confidential grievance mechanism for all workers

Current Systems and Evidence Examined

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is /are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

Current Systems:

1. The disciplinary procedure only includes oral warning, written warning and education, which was confirmed through workers interview.

2. The factory has established an anti-harsh or inhumane treatment policy. The policy states that physical abuse or discipline, the threat of physical abuse, sexual or other harassment and verbal abuse or other forms of intimidation shall be prohibited in this facility.

3. There was an internal grievance mechanism, which was an anonymous suggestion box, where employees could report any grievances (harassment, bullying and discrimination), any received complaint would be handled by management, without any reprisal for the employee in question. All sampled employees were aware this system.

4. Related training records and grievance records / documented evidence were maintained in place. Security practices were humane and comply with customers' expectation.

Evidence examined:

Details:

1.The relevant policy on prevention of harassment and abuse

2. Internal grievance procedure documentation

3. Disciplinary action records

4. Grievance records

5.Training records

6. Interview with management and workers

Any other comments:

Nil

Are there published, anonymous and/or open channels available for reporting any violations of Labour standards and H&S or any other grievances to a 3rd party?

☒ Yes ☐ No

Please give details:

Suggestion box, email and telephone number were available for employees' complaints. Workers could report to the local labour force bureau if violations were happened.

If yes, are workers aware of these channels and have access? Please give details.

The factory management had made the training to workers, posted the hotline and suggestion box in the workshops. Workers were aware of the channel and they could report violations to the local labour force bureau freely.

If yes, what type of mechanism is used
e.g. hotline, whistle blowing
mechanism,comment box etc. Please
give details.

Hotline, email address, suggestion box on site were available.

Which of the following groups is there a grievance mechanism in place for?

☒ Worker ☐ Communities

☐ Suppliers ☐ Other

Please provide grievance mechanism details

There was a confidential email and suggestion box system, monitored by relevant trained HR managers.

Are there any open disputes?	☐ Yes ☒ No Please give details:
Does the site encourage its business partners (e.g. suppliers) to provide individuals and communities with access to effective grievance mechanisms (e.g. helplines or whistle blowing mechanism)	☒ Yes ☐ No Please give details:
Is there a published and transparent disciplinary procedure?	☒ Yes ☐ No Please give details:
If yes, are workers aware of these the disciplinary procedure?	☒ Yes ☐ No Please give details:
Does the disciplinary procedure allow for deductions from wages (fines) for disciplinary purposes (see wages section)?	☐ Yes ☒ No Please give details:

10A - Entitlement to Work and Immigration
[Summary of Findings]

10A: Compliance Requirements

- 10.A.1 Only workers with a legal right to work shall be employed or used by the supplier.
10.A.2 All workers, including employment agency staff, must be validated by the supplier for their legal right to work by reviewing original documentation.

Current Systems and Evidence Examined

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is /are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

Current Systems:

1. Per document review, onsite tour, factory management representation and employee interview, all employees in the facility were Chinese.
2. No agency staff or foreign employee was working in the factory.
3. All employees were recruited directly by the facility and no agency was involved in facility's recruitment processes.
4. All employees had the proper legal rights to work in this region.

Evidence examined:

Details:

- 1.Hiring procedure
- 2.Worker handbook
- 3.Personal files and contracts
- 4.Interview with management and workers
- 5.Employee roster

Any other comments:

10B4 - Environment 4–Pillar
[Summary of Findings]

10B4: Compliance Requirements

10.B4.1 Businesses as a minimum must meet the requirements of local and national laws related to environmental standards.

10.B4.2 Where it is a legal requirement, businesses must be able to demonstrate that they have the relevant valid permits including for use and disposal of resources e.g. water, waste etc.

10.B4.3 Businesses shall be aware of their end client's environmental standards/code requirements

10.B4.4 Suppliers should have an environmental policy, covering their environmental impact, which is communicated to all appropriate parties, including its own suppliers.

10.B4.5 Suppliers shall be aware of the significant environmental impact of their site and its processes.

10.B4.6 The site should measure its impacts, including continuous recording and regular reviews of use and discharge of natural resources e.g. energy use, water use (see 4–pillar audit report and audit checks for details).

10.B4.7 Businesses shall make continuous improvements in their environmental performance.

10.B4.8 Businesses shall have available for review any environmental certifications or any environmental management systems documentation

10.B4.9 Businesses should have a nominated individual responsible for co-ordinating the site's efforts to improve environmental performance.

10B4: Guidance for Observations

10.B4.10 Suppliers should have completed the appropriate section of the SAQ and made it available to the auditor.

10.B4.11 Has the site recently been subject to (or pending) any fines/prosecutions for noncompliance to environmental regulations.

Note for auditors and readers. This environment section is intended to take not more than 0.25 auditor days. It is an assessment only and the main requirement is to establish whether a site is meeting applicable environmental laws and/or has any certifications or environmental management systems in place. Following this assessment the client/supplier may decide a full environmental audit is required (see also best practice guidance/environment and guidance for auditor)

Current Systems and Evidence Examined

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is /are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

Current Systems:

1. Ms. Wang Jin Bo/ QC Manager was responsible for the environment management system in the facility.
2. Every year, the factory had statistical records of the usage and emission of natural resources, such as energy usage and water usage.
3. The site has established environmental policy concerning environment issue and the responsible management staff was aware of local laws / regulations governing environment, keeps the law up to date. The factory conducted a risk assessment on the environmental impact of the site, including implementation of controls to reduce identified risks.
4. Based on management and employees' interview, they were trained on environmental protection.
5. There was no environment violation in the past 12 months as per website checking.

Evidence examined:

Details:

- 1.The relevant policy on prevention of environment
- 2.Risk assessment records
- 3.Environment monitoring report
- 4.Training records
- 5.Interview with management and workers

Any other comments:

Nil

Environmental Analysis	
Is there a manager responsible for Environmental issues (Name and Position):	Ms. Wang Jin Bo/ QC Manager was responsible for environmental issues.
Has the site conducted a risk assessment on the environmental impact of the site, including implementation of controls to reduce identified risks?	☒ Yes ☐ No Please give details: The factory conducted a risk assessment on the environmental impact of the site and the records provided for review.
Does the site have a recognised environmental system certification such as ISO 14000 or equivalent?	☐ Yes ☒ No Please give details: No environmental system certification such as ISO 14000 or equivalent provided by the factory.
Does the site have an Environmental policy?	☒ Yes ☐ No
If yes, is it publicly available?	☒ Yes ☐ No
If yes, does it address the key impacts from their operations and their commitment to improvement?	☒ Yes ☐ No Please give details: The factory had an environmental policy which addressed the key impacts from their operations and their commitment to improvement. The policy was publicly.
Does the site have a Biodiversity policy?	☒ Yes ☐ No
Is there any other sustainability systems present such as Chain of Custody, Forest Stewardship Council (FSC), Marine Stewardship Council (MSC) etc.?	☒ Yes ☐ No Please give details: The factory implemented the FSC sustainability system and obtained the certificate. The certification number is SA-COC-013864 and valid date is 3 April 2028.
Have all legally required permits been shown?	☒ Yes ☐ No Please give details: All legally require permits were shown and provided for review.
Is there a documentation process to record hazardous chemicals used in the manufacturing process?	☒ Yes ☐ No ☐ Not Applicable Please give details: The factory provided the documents for review which recorded the hazardous chemicals used in the manufacturing processes.
Is there a system for managing client's requirements and legislation in the destination countries regarding environmental and chemical issues?	☒ Yes ☐ No Please give details: The factory had set up the system to manage client's requirements and legislation in the destination countries regarding environmental and chemical issues.

Facility has reduction targets in place for environmental aspects e.g. water consumption and discharge, waste, energy and green-house gas emissions:	☒ Yes ☐ No Please give details: The factory had set the reduction targets in place for environmental aspects.	
Facility has evidence of waste recycling and is monitoring volume of waste that is recycled.	☒ Yes ☐ No Please give details: The factory monitored and recorded the volume of waste recycling. The records were available for review.	
Does the facility have a system in place for accurately measuring and monitoring consumption of key utilities of water, energy and natural resources that follows recognised protocols or standards?	☒ Yes ☐ No Please give details: The factory's admin department would carry out accurate measuring and monitoring consumption of key utilities of water,energy and natural resources that followed recognised protocols or standards.	
Has the facility checked that any Sub-Contracting agencies or business partners operating on the premises have the appropriate permits and licences and are conducting business in line with environmental expectations of the facility?	☒ Yes ☐ No Please give details: Supplier audits had been conducted and records had provided for review.	
Usage/Discharge analysis		
Criteria	Previous year: 2023	Current year: 2024
Electricity Usage: Kw/hrs	280000	150000
Renewable Energy Usage: Kw/hrs	0	0
Gas Energy Usage: Kw/hrs	0	0
Has site completed any carbon Footprint Analysis?	No	No
If Yes, please state result		
Water Sources	Local water authority	Local water authority
Water Volume Used	6615	3500
Water Discharged	domestic sewage	domestic sewage
Water Volume Discharged	330	170
Water Volume Recycled	330	170
Total waste produced	5.153 tons	1.904 tons
Total hazardous waste produced	0.153 tons	0.04 tons
Waste to recycling	0	0
Waste to landfill	5 tons	1.9 tons
Waste to other	0	0
Total Product Produced	10000000	6000000

10C - Business Ethics – 4-Pillar Audit
[Summary of Findings]

10C: Compliance Requirements

10.C.1 Businesses shall conduct their business ethically without bribery, corruption, or any type of fraudulent Business Practice.

10.C.2 Businesses as a minimum must meet the requirements of local and national laws related to bribery, corruption, or any type of fraudulent Business Practices.

10.C.3 Where it is a legal requirement, businesses must be able to demonstrate that they comply with all fiscal legislative requirements.

10.C.4 Businesses shall have access to a transparent system in place for confidentially reporting, and dealing with unethical Business Ethics without fear of reprisals towards the reporter.

10.C.5 Businesses should have a Business Ethics policy, covering bribery, corruption, or any type of fraudulent Business Practice,

10.C.6 Businesses should have a designated person responsible for implementing standards concerning Business Ethics

10.C.7 Suppliers should ensure that the staff whose job roles carry a higher level of risk in the area of ethical Business Practice e.g. sales, purchasing, logistics are trained on what action to take in the event of an issue arising in their area.

10C: Guidance for Observations

10.C.8 Businesses should communicate their Business Ethics policy, covering bribery, corruption, or any type of fraudulent Business Practice to all appropriate parties, including its own suppliers.

10.C.9 Has the site recently been subject to (or pending) any fines/prosecutions for non-compliance to Business Ethics regulations. If so is there evidence that sustainable corrective actions have been implemented

Note for auditors and readers. This Business Ethics section is intended to take not more than 0.25 auditor days. It is an assessment not an audit.

Current Systems and Evidence Examined

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is /are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

Current Systems:

1.The site has written policy in place concerning business ethically without bribery, corruption, or any type of fraudulent business practice, and the responsible management staff was aware of local laws / regulations governing environment, keeps the law up to date.

2.In addition, a designated person was responsible for implementing standards concerning Business Ethics such as period review the suggestion box and other way.

3.The factory provided related training for HR, Sales, Finance, QC and so on.

Evidence examined:

Details:

1.Business ethics policy

2.Training records

3.Internal audit records

Any other comments:

Nil

Does the facility have a Business Ethics Policy and is the policy communicated and applied internally, externally or both, as appropriate?	☒ Internal Policy ☒ Policy for third parties including suppliers Please give details: The factory had established business ethics policy and policy was trained to related workers. The policy was also sent to externally such as suppliers and communicated through emails.
Does the site give training to relevant personnel (e.g. sales and logistics) on business ethics issues?	☒ Yes ☐ No Please give details: The factory provided training to sales, HR manager and QC, etc. Records were available for review.
Is the policy updated on a regular (as needed) basis?	☒ Yes ☐ No Please give details: The policy was reviewed once per year and updated in the management internal audit.
Does the site require third parties including suppliers to complete their own business ethics training	☒ Yes ☐ No Please give details: The factory conducted supplier assessment and required suppliers to complete their own business ethics training.
